Editorial

Dear Colleagues,

We are really very happy to welcome you again in Athens for joining us in the **5th Official pre-ESH International Congress Satellite Symposium**, entitled **“Update on Difficult to Control Hypertension and Related Comorbidities”**, on **23-24 March, 2018**.

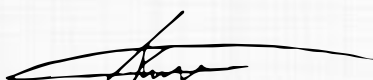

Approximately 10-15% of treated hypertensives suffer from uncontrolled high blood pressure despite prescription of multidrug therapy. Difficult to control or resistant hypertension is also more common among patients with other comorbidities like chronic kidney disease, atherosclerotic cardiovascular disease, diabetes mellitus and sleep apnea syndrome.

For the medical community taking care of hypertensive patients (Cardiologists, Internists, Nephrologists, General Practitioners) this Symposium aims to provide a forum of exchanging current knowledge and sharing clinical experience for the management of difficult to control hypertension.

The Symposium's sessions including round tables, debates and lively discussions have a double scope: First to help physicians to understand the complex pathophysiology and the difficulties in establishing the diagnosis of difficult to control or resistant hypertension and secondly to ensure a successful integration of therapeutic strategies for patients presenting with difficult to control hypertension. Additionally there is a workshop on hypertension and Stroke with special emphasis on current therapeutic new options.

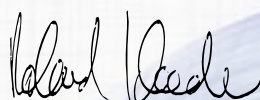

Having the above in mind, we are excited to share with you the final scientific program and the knowledge of international experts as a foretaste of the main meeting of the ESH 2018.

Prof. Costas Tsioufis

**Chairman of the Symposium
ESH-President**

SCIENTIFIC PROGRAM

WORKSHOP: HOW TO PREVENT AND MANAGE HYPERTENSIVE COMPLICATIONS (STROKE, HEART DISEASE, KIDNEY DYSFUNCTION)

Friday, March 23, 2018

14.30-15.00 Registrations-Coffee

15.00-16.00 **ROUND TABLE I**

Difficult everyday scenarios in hypertensive patients: General aspects

Chairmen: P. Agathagelou (CY), D. Clement (BE), M. Papavasiliou (GR)

A 38-year-old hypertensive female with well controlled hypertension under ACEI is now pregnant

M. Pikilidou (GR)

A basketball athlete 28 years old complains for headache and his blood pressure is found high (150/85 mmHg)

C. Grassos (GR)

A 50-year-old female with depression and increased body weight measures high blood pressure (160/95 mmHg) at home

V. Katsi (GR)

An 82-year-old male with Parkinson disease complains for high blood pressure and dizziness

K. Dimitriadis (GR)

Panelists: P. Stougianos (GR), Ath. Triantafyllou (GR), F. Lagiou (GR), E. Andrikou (GR)

16.00-17.00 **ROUND TABLE II**

Difficult everyday scenarios in hypertensive patients: A clinical update on stroke prevention and management

Chairmen: F. Stylianou (CY), T. Makris (GR), P. Zebekakis (GR)

A 70-year-old hypertensive female with high bleeding risk and paroxysmal atrial fibrillation

A. Kordalis (GR)

A 65-year-old hypertensive male with paroxysmal atrial fibrillation admitted for NSTEMI

M. Kallistratos (GR)

An asymptomatic 73-year-old male with hypertension, dyslipidemia and unilateral 70% carotid stenosis

C. Savopoulos (GR)

A 55-year-old patient presented with ischemic stroke and uncontrolled hypertension

E. Koromboki (GR)

Panelists: D. Chatzis (GR), E. Fragoulis (GR), G. Latsios (GR), S. Sideris (GR)

17.00-17.15 **LECTURE**

Increased BP Variability: an additional risk factor and a new therapeutic target?

Chairman: A. Hatzitolios (GR)

Speaker: G. Parati (IT)

17.15-17.45 **SATELLITE LECTURE**

Chairman: TBA

Speaker: TBA

17.45-18.00 Coffee break

Friday, March 23, 2018

18.00-19.00 **ROUND TABLE III**

Difficult everyday scenarios in hypertensive patients: A clinical update on cardiovascular prevention and management

Chairmen: **M. Dorobantu (RO)**, **I. Zarifis (GR)**, **S. Erdine (TR)**

A 44-year-old diabetic hypertensive patient complains for atypical thoracic pain

M. Marketou (GR)

A 72-year-old hypertensive man diagnosed with an abdominal aorta aneurysm (51 mm)

K. Filis (GR)

A 68-year-old hypertensive male admitted for acute pulmonary edema and high blood pressure

D. Lovic (RS)

A 74-year-old hypertensive patient with a history of stable coronary artery disease and psoriasis

D. Papadopoulos (GR)

Panelists: **K. Aznaouridis (GR)**, **D. Gourlis (GR)**, **U. Papazachou (GR)**, **S. Filipova (SK)**

19.00-19.30 **SATELLITE LECTURE (MSD)**

Chairman: **TBA**

Speaker: **TBA**

19.30-20.30 **ROUND TABLE IV**

Difficult everyday scenarios in hypertensive patients: A clinical update on kidney prevention and management

Chairmen: **B. Jelakovic (HR)**, **D. Lovic (RS)**, **A. Pittaras (GR)**

A 36-year-old hypertensive male with polycystic kidney disease reports high blood pressure

R. Kalaitzidis (GR)

A kidney transplanted male with hypertension

S. Marinaki (GR)

A 55-year-old non-diabetic hypertensive patient with albuminuria

B. Jelakovic (HR)

A 68-year-old diabetic female with newly diagnosed stage II hypertension

E. Triantafyllidi (GR)

Panelists: **F. Stylianou (CY)**, **E. Nasothimiou (GR)**, **E. Sanidas (GR)**, **M. Sonikian (GR)**

20.30-21.00 **SATELLITE LECTURE**

Chairman: **TBA**

Speaker: **TBA**
